## Raw Milk Sale Labeled As Health Hazard

By GLADYS ISAKSON  
Deseret News Staff Writer

Control of two of Utah's significant health problems — raw milk contaminated by radioactive fallout, and rheumatic fever and chronic rheumatic heart diseases—highlighted State Board of Health discussion and action Wednesday.

The board passed a resolution "recognizing the sale of raw milk as a health hazard" and urging "public action which will result in eventual limitation of the public sale of raw milk."

Even the constant checks of the cleanest dairies will not
